Personal Profile

Upon enrolling in the faculty of Computers and Information at Al-Minya University, I was eager to gain practical experience in the field. I actively sought out opportunities to work on real-world projects, both through my coursework and by freelancing during my final year. As a software engineer, I now specialize in building cutting-edge web applications using the latest technologies. I am committed to staying up-to-date with emerging trends and leveraging my expertise to deliver high-quality solutions for my clients.
